Suggested Criteria and Score Sheet for Judging Exam

Criteria	Scoring				
	strongly agree	agree	neutral	disagree	strongly disagree
Both the report and talk had a proper balance of introductory and in-depth material.					
The level of the material presented in both the report and talk was appropriate for all faculty present.					
The candidate demonstrated mastery of the material presented, especially an understanding of the physics germane to the topic.					
The report and talk contained assessment, discussion, conclusions, and summaries that represent the candidates own interpretation of the subject.
