

COVID-19 STANDARD OPERATING PROCEDURES

Program:	PI/Lab Director
Contact name:	David Peak
Contact email:	David.peak@usu.edu
Contact phone number:	(435) 797-2884
Room numbers:	SER 240

I am currently engaged in research with two undergraduates. Our projects are theoretical and computer based. There is no laboratory component.

SPACE AND EQUIPMENT SAFETY

1. DISTANCING: For the past four months my students and I have been interacting via email only. Our plan is to continue our work in this manner, with no face-to-face meetings.
2. I will continue to work from home.
3. EQUIPMENT: I will use only my personal computers.
4. STUDENT RESEARCHERS: I will not ask any student researcher to meet with me in person; instead, I will offer video, text, or voice chat as substitutes for F2F interaction.

PERSONAL HYGIENE AND PPE

- I will follow standard good hygiene practices as outlined by the CDC (frequent handwashing, sanitization of surfaces, social distancing, cloth mask when in public).

TIME MANAGEMENT

- I plan to continue working about ten hours a day at home.

WORKER HEALTH

- I will make a point to remind my research advisees about following best practices of hygiene and prevention.
